Re: Docket Number 00P-1211/CP1

Commissioner Jane Henney
FDA Documents Branch
Rockville MD 20852

Dear Commissioner Henney,

I am writing to express my concerns regarding genetically engineered food.

Emerging studies show GE foods could create new toxins, anti-biotic resistance and allergic reactions. The long term effects on humans are unknown. Genetic drift could endanger organic food.

I am asking that all GE foods be labeled to give me a choice, that mandatory pre-market safety testing and review take place and for there to be a moratorium on all GE foods until these requirements are met.

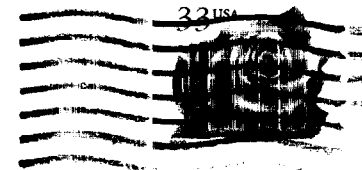

Thank you for your consideration.

Sincerely,
Pearl Cherrington
